DETAILED ACTION

0.1 This Office Action is in response to the amendment filed on 7/31/2006. Claims 25-26 are amended, claims 1-24 are pending.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 24-26 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Particularly, independent claim 24 is directed to claiming “a machine readable medium comprising machine executable instructions for controlling a machine ...”. A machine readable medium is not a statutory subject matter because it does not fall into one of the four statutory subject. A “machine readable medium” is not a process, or machine, or manufacture, or composition of matter to be a patentable subject matter.

Allowable Subject Matter

2. Claims 1-23 are allowed.

Response to Arguments

3. Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.
